TO WHOM IT MAY CONCERN

Alpha Bible College provides theological education with the sole purpose of equipping students for Christian ministry, biblical understanding, and spiritual formation within the context of faith-based service.

All courses, diplomas, degrees, and certifications offered by Alpha Bible College are exclusively designed for ecclesiastical, theological, and ministerial purposes. They are not intended to qualify graduates for governmental, secular, or corporate employment, nor should they be interpreted as equivalent to degrees issued by state-accredited institutions.

These programs aim to build up individuals in Christian doctrine, prepare them for service in churches and ministries, and support their growth as servants of God—not as applicants for state employment or professional licensing.

“Degrees are offered for ministry, biblical education, and spiritual growth, not for employment in governmental sectors.”
